

Statistical Research Publications

The Investment Company Institute is the national association of US investment companies, including mutual funds, closed-end funds, exchange-traded funds (ETFs), and unit investment trusts (UITs). For 80 years, our members have relied on us for accurate, current information. In addition, we are a respected source of information for the news media, regulatory agencies, state governments, and the investing public. The information we provide is in-depth, readable, and reliable.

Subscribers receive publications via electronic delivery and have access to statistical reports on the ICI website at www.ici.org.
